DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on July 27, 2004 and August 03, 2004 are considered by the examiner.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: in claim 26, line 1, "15" has been changed to -- 25 --.

Reasons For Allowance

3. The following is an examiner's statement of reasons for allowance:

Claims 1-18 recite, inter alia, a circuit and a method for monitoring defects in an integrated circuit, comprising a first set of sense elements coupled to said nominally continuous conductor at locations along the length of said nominally continuous conductor located between conductor segments; a second set sense elements coupled to corresponding conductor segments of multiplicity of conductor segments; gates responsive to a control signal on select inputs of said gates to serially and electrically connect said conductor segments into a nominally electrically continuous conductive path based on a first logical value of said control signal and to electrically disconnect

said conductor segments from one another based on a second logical value of said control signal.

Claims 19-30 recite, inter alia, a circuit and a method for monitoring defects in an integrated circuit, comprising a scan chain comprising a scan input, a multiplicity of latches coupled in series from a first latch to a second latch and a scan output; a multiplicity of electrically conductive defect monitor structures, each defect monitor structure coupled between different adjacent latches of said scan chain, an input of each defect monitor structure coupled to an output of a previous latch of said scan chain and an output of each defect monitor structure coupled to an input of an immediately subsequent latch of said scan chain.

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Communication

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Minh N. Tang whose telephone number is (571) 272-1971. The examiner can normally be reached on M-F (7:00-3:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nestor R. Ramirez can be reached on (571) 272-2034. The fax phone
